

REGIONAL QUALITY DIRECTOR

Zurich, Switzerland

Are you passionate about quality?

In this role, you will work for a truly global company, with a broad and varied product portfolio, and strong footprint in Europe. This is your chance to lead Quality for multiple sites, across multiple divisions.

In this exciting and broad position, you will:

- **Have overall responsibility for the QMS of all the sites in the West region of Europe**
- **Create strategies for QMS implementation and improvements, ensure regulatory compliance and lead inspection preparations across the company sites**
- **Manage a team of quality site leaders (who in turn manage local teams covering quality). You'll be responsible for their professional development, hiring, mentoring and performance management**
- **Support company wide improvement projects for standardization across multiple sites in the EMEA organisation**
- **Continuously monitor the existing systems for change control, archiving, training, trending, management responsibility, auditing, supplier management, system validation and process of receiving inspections by site leadership, and find innovative ways for improvement**
- **Co-operate with partners, as quality representative for the region. Your partners will from all areas and disciplines of the company; laboratories, regulatory, product development, operations, process validation and more. Strong communication skills and ability to influence would be well received here**
- **Assist the VP to strategically plan which elements of the QMS can be consolidated between sites**

**Do you enjoy working in a fast
paced environment?**

**Do you find innovative ways to
solve problems?**

**If you fit these criteria we would
love to hear from you!**

- **10+ years experience in the medical device industry, in a leading quality position**
- **Fluent French and English**
- **Confidence and ability to make independent decisions based on sound principles**
- **Flexibility for travel (mainly France and Switzerland)**
- **Experience with ISO13485, ISO 9001, ISO14971 and relevant regulatory standards i.e MDD 93/42/EEC**
- **Ability to influence through communication**

We'd love to hear from you!
