

POST-MARKET SURVEILLANCE SPECIALIST

Zurich Region

The company:

Join a well established, growing company designing, developing and producing a Class III active implantable medical device that changes the lives of patients.

To further support the growth of their Regulatory and Quality division, our client have released an exciting position for a Post-Market Surveillance Specialist.

This is a great opportunity to join a close knit team with one vision, surrounded by other senior experts in their field. You can be sure that no two days will be the same! You'll enjoy a wide variety of responsibilities covering various elements of Regulatory and Quality.

As the Post-Market Surveillance Specialist your responsibilities will include but not be limited to:

- Responsible for investigation results; inclusive of the review and assessment of CAPAs and other applicable documents.
- Be a key link for the Regulatory and Quality teams, providing critical feedback on post-market trends and updates.
- Play a critical role in external audits with key post-market surveillance information.
- Plan and implement all PMS reports.
- Report directly to the competent authorities in regards to the evaluation of complaints.
- Responsible for KPI reports to senior management in connection to all post-market surveillance activities.

Requirements:

- 3+ years of experience within a key Post-Market Surveillance role.
- Expertise within the field of medical devices.
- Experience and/or exposure to the quality and regulatory department within medical devices.
- A key understanding of ISO 13485.
- The ability to make independent decisions and provide leadership with reporting and setting effective goals for the Post-Market Surveillance area within the business.
- Excellent communication skills in English.
