

# VERIFICATION AND VALIDATION MANAGER

ZURICH AREA

## The Company

Join a well established, growing company designing, developing and producing a Class III active implantable medical device that changes the lives of patients.

To further support the growth of their Regulatory and Quality division, our client has released an exciting position for a Verification and Validation Manager.

This is a great opportunity to join a close knit team with one vision, surrounded by other senior experts in their field.

You can be sure that no two days will be the same!

You'll enjoy a wide variety of responsibilities covering various elements of Regulatory and Quality.

## As the Verification and Validation Manager your responsibilities will include but not be limited to:

- Responsible for the effective planning and execution of all verification and validation activities within the organisation.
- Improve manufacturing predictability and robustness.
- Responsible for reviewing, editing, and approving SOPs, CAPAs, and other applicable documentation.
- Responsible for validation of software used within QMS.

eLeMed

## Requirements:

- 4+ years of experience in verification and validation.
- Experience and/or exposure to active medical devices.
- Managerial experience or project management experience is an advantage.
- Excellent communication skills in English.
