

QUALITY AUDITOR

CANTON VAUD, SWITZERLAND

Are you looking for an opportunity to work within a globally leading medical device company and be their next expert for quality auditing?

Are you looking for a new role where you can enrich your skills across the globe?

THE COMPANY

We are the exclusive partners to a globally leading medical device company based in the Canton Vaud area who are currently searching for their next quality auditor. Do you want to be part of one of the world's biggest healthcare companies?

With an extremely dynamic growth strategy, and great future prospects, this is for sure a company where you won't get bored! This is an opportunity to join and have oversight of the biggest and best performing market segment for the company; which has enjoyed double digit growth in the last year.

Due to this growth - a completely new role as Quality Auditor has been created. The goal; play a critical global role concerning all internal audits, by leading and evaluating.

THE OPPORTUNITY

This is a brand new role, which you will have the chance to shape yourself from the beginning, giving you maximum impact! It's all about being able to prioritise multiple high profile requests and playing a critical role in the audits across multiple sites. If you are passionate about working with multiple cultures and enjoy collaborative environments, this is the career step for you!

IN THIS NEW AND EXCITING STAFF QUALITY AUDITOR ROLE YOU WILL:

- Conduct Corporate Quality Internal Audits to assure compliance with domestic and international medical device standards and regulations, local procedures, and corporate policies/procedures.
 - Follow up with the auditee as required to compile information relating to the audits.
 - Provide periodic reports to management based on the audit statuses and defined metrics.
 - Travel about 30-50% to the sites.
 - Directly work with the team in the USA.
- 

CONTACT US IF YOU HAVE...

- 3-5 years of experience in internal or external audits from the medical device industry; expertise within the IVD industry will also be accepted.
- Knowledge of ISO 13485, FDA QSR, MDR & IVDR, MD SAP.
- Good knowledge with CAPA.
- Ability to travel; there are some home based options available in this role.
- Excellent communication skills in English, both written and spoken. Fluency in any other European language would be a bonus.
