

Senior Technical Certifier- IVD

Munich or Hamburg

The Opportunity

This is a one of a kind opportunity to become the face of IVDs for a large notified body as they prepare for the new IVD regulation.

They are hugely investing in this, with a view to more than quadruple their existing talent pool. This is not a typical product assessor/auditor role, but instead an exciting opportunity to be the decision maker across multiple sites in Germany. Be part of a legacy in the development of the IVDR over the next two years; one of the most exciting growth areas within notified bodies.

Come and join one of the largest notified bodies at their exciting point of growth and be their next decision taker in the exciting field of In-Vitro Diagnostics.

Your responsibilities will include but not be limited to:

- Conducting and leading all certification activities for IVD and IVDR.
- Ensuring all QMS requirements are met and in compliance. Final decision made in terms of certification, inclusive of maintenance.
- Conducting audits for multiple sites.
- Be a key liaison with clients and travel to client sites.
- Be responsible for their complaints and questions.
- Be part of a legacy group in the certification of new companies for IVDR.

Qualifications:

- Masters degree or equivalent engineering degree within natural sciences, biochemistry, biotechnology or equivalent.
- Previous working experience within a notified body as an auditor or assessor would be a great advantage for this role OR strong regulatory experience with knowledge of production.
- Excellent technical knowledge of IVD, with specific expertise within high risk IVD products.
- Excellent communication skills in both German and English.

If you are interested to take the next step in your career and become the decision maker in one the largest Notified Bodies, ensure you apply today!
