

Regional Quality Assurance Distribution & Logistics

Eindhoven Area, Netherlands

Come and join a global leader in healthcare with locations across the world and around 8,000 employees. The devices (manufactured and sold globally) are groundbreaking AND life changing. Thanks to a full pipeline of R&D and new products, this company is really leading the way and innovating within their space.

At this company you'll enjoy a flat hierarchy (no top down management here!) where communication is open and you are valued not just as an employee but as a person. This company has very high ethics and a unique culture where the work-life balance is important!

The Opportunity

You will have the opportunity to be a part of the Regional Quality Assurance team for EMEA. As Regional Quality Assurance - Distribution & Logistics, you will be based at the European distribution warehouse for global markets. Not only will you support the warehouse operation, you will also interface with the core company's operation and 3rd party logistics provider.

Your responsibilities:

- Drive investigations into NCRs and CAPAs
- Collaborate closely with the 3PL on inbound inspection process, set up of VAS activities, follow up on supplier CAPAs
- Be the representative for Quality for reboxing, boxing and labelling operations on site under the internal QMS including answering any questions
- Internal and external audit preparation
- Dip into various other projects such as MDR implementation, boxing projects, clinical trial product storage
- Travel up to 10% in EU and internationally

Your qualifications:

- 2+ years experience in manufacturing environment under ISO 13485 OR ISO 9001
- Engineering background
- Fluent English speaking, reading and writing

We'd love to hear from you!
