eleMed

QA Software Engineer

SOLOTHURN

This is a great chance to join a leading Swiss Medtech company, with offices in Solothurn. They have a big product portfolio and the quality department is always pushing to excellence.

You are having an impact on improving people's lives. With over 30 years experience they are at the forefront of innovation in diabetes care and are present across the globe employing approximately 1700 people worldwide.
This is an exclusive role and a great opportunity to get training and development in Medical Devices.

For everyone who is interested to work in an innovative environment with fast growth. You are working together with other experts on projects that involve digital products.

APPLY IF YOU HAVE:

- A software engineering background
- Fluent German and English skills.

AS A QA SOFTWARE ENGINEER YOU WILL:

- Handle software complaints from apps on the market
- Act as a first level support
- Development of the software complaint process
- Working on projects related to digital products
- New product development

WE'D LOVE TO HEAR FROM YOU!

Please send your CV to paul@elemed.eu to arrange a confidential career discussion.

Only applicants who meet the requirements above will be considered for the role. Unless otherwise stated we are not able to consider applicants without EU work authorization. Elemed is an executive search firm, specialized in finding and representing exceptional talent in medtech. To find out more about our Candidate Services click here: https://www.elemed.eu/candidates/
