

# IVD Specialist

Remote in UK

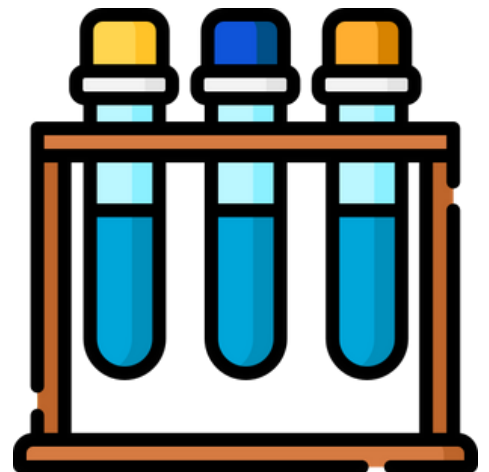

Are you an expert in In Vitro Diagnostic technology? Do you want to further develop your career in the newest innovations in diagnostics? Can you think outside of the box?

Yes? Think about joining a Notified Body! This company is one of the global leaders for assessing whether diagnostic manufacturers meet the requirements set out in European legislation, ensuring their products are safe and effective. This is a great chance to really be at the centre of the most cutting edge diagnostics technology entering the market.

This is a newly created role and a unique chance for an in vitro diagnostic professional with experience in R&D or early development phase Regulatory Affairs to use those skills in a new context. **You will get access to advanced training**, learning about the new IVDR, as well as the chance to use your technical knowledge to represent the company to its customers. This is a chance to be part of and central to the biggest change affecting the Diagnostics industry in the last 50 years.

## As IVD Product Specialist, you will:

- Review and assess Technical Documentation for in vitro diagnostic devices
- Provide product demonstration and ensure compliance to the IVD conformity assessment scheme and applicable Standards
- Act as internal EU expert for all questions and queries relating to In Vitro Diagnostic products and providing information to colleagues with regard to standards, regulatory and technical requirements for compliance with standards and the respective regulatory system
- Support customers coordinating multiple product-related projects, audits and answering specific questions relating to your area of expertise
- Support customers within the regulatory framework (where permitted)
- Guide QMS audits as technical expert

## As IVD Product Specialist you should have:

- Minimum 4 years of experience in the in vitro diagnostic field
- Experience related to design and development of IVD devices (e.g. regulatory affairs/ quality/ R&D)
- Bachelor's, Master's or PhD in relevant science or engineering

Do you meet the requirements?

We'd love to hear from you!

Please send your CV to [kristina@elemed.eu](mailto:kristina@elemed.eu) for a confidential career discussion.

Only applicants who meet the requirements above will be considered for the role. Unless otherwise stated we are not able to consider applicants without EU work authorization.

Elemed is an executive search firm, specialized in finding and representing exceptional talent in medtech. To find out more about our Candidate Services click here:<https://www.elemed.eu/candidates/>
