

# QUALITY MANAGER

## BERN, SWITZERLAND

80-100%

### The Company

If you're looking for a young company with a true sense of purpose, and clear vision look no further! This is, quite literally, a once in a lifetime opportunity to join a company fighting this worldwide disease and a chance to be part of the solution! This young company has its activities right at the heart of the COVID-19 pandemic.

This isn't a corporate slow-moving big company machine. If you're interested in an environment where decisions are made fast, company hierarchies are flat and where your voice is heard and listened to, read on. This is a role where you're expected to manage, educate and improve the company and its processes through Quality.

### The Opportunity

In this role as Quality Manager you will work closely on the development, maintenance and improvement of the Quality Management System and other quality related activities. This role will be in close collaboration with all of the company's staff, ensuring they are trained on how it works and how quality is part of the company's culture.

## As Quality Manager you will...

- Be responsible for maintaining and ensuring that the Quality Management System is effective and fit for purpose to meet the company's needs
- Support and guide the company's design and development activities in line with Quality requirements
- Be responsible for post-market surveillance, vigilance, complaint handling and CAPA processes and support the leadership in reporting to the competent authorities and Field Corrective Actions if required
- Lead training across the company to ensure the QMS is effective and quality is adopted as a core culture of the company
- Be responsible to generate, review and edit SOPs, and other applicable documentation within the QMS responsibility.
- Undertake internal audits and take responsibility for the communication between the company and critical partners relating to quality topics

## As Quality Manager you should have...

- Technical/scientific Education: Biology, Biochemistry, Chemistry, Biotechnology, Engineering or similar
- 3+ years Quality Management/ Quality Assurance experience in the medical device/IVD industry and hands-on experience with ISO 13485 (and e-QMS)
- Strong written and verbal communication skills in English and German
- Pragmatic, solution-driven, motivated interest to train and guide processes

We'd love to hear from you!

Please send your CV to [elena@elemed.eu](mailto:elena@elemed.eu) to arrange a confidential career discussion.
