# QUALITY ASSURANCE SPECIALIST

GET IN TOUCH AT [KRISTINA@ELEMED.EU](mailto:KRISTINA@ELEMED.EU)

# THE COMPANY

Do you want to work on an AIMD that is changing the lives of patients? Are you tired of working in large, slow-moving corporations but worried about joining an unstable start-up? Do you have experience working in Quality Assurance for active medical devices?

If yes, we have a fabulous opportunity just for you!

This company is designing, developing and producing an innovative Class III active-implantable medical device that is already CE marked and changing the lives of patients. To support their continuous growth and expand their QA/RA team, this company is looking for a Quality Assurance expert to join them and step into a newly created role.

You can expect to join a company with a dynamic, fast-paced and collaborative way of working that will support you to expand your skills and knowledge.

---

# THE OPPORTUNITY

This is an exciting time to be joining the company as they grow in all areas including people, product indications and markets. You will be stepping into a brand new position as Quality Assurance Specialist in a great team that works in a collaborative way. This is an opportunity to work on a complex portfolio with 1300 components and be involved with all activities relating to quality assurance.

## **As Quality Assurance Specialist you will:**

- Be responsible for the timely execution of calibration and preventive maintenance activities for controlled equipment
  - Prepare and update the respective KPIs
  - Support the execution of incoming inspections, in-process and quality control inspections
  - Monitor environmental activities (e.g. temp/RH logs, production/warehouse area, ESD) and supporting data filing
  - Handle and coordinate non-conforming products (NCMRs)
  - Investigate and coordinate vendor-related non-conformities (V-CARs)
  - Support the Manager Quality Assurance on assigned tasks including quality assurance related training activities, supplier qualification process and more
  - Assist the coordination of Returned Material (RMA) for complaint handling
-

# THE REQUIREMENTS

**As Quality Assurance Specialist you will have:**

- A minimum of 3 years demonstrated Quality Assurance experience
- Experience working with active medical devices
- Fluent reading, writing and speaking in English. German is a bonus
