

# QUALITY MANAGER

Antwerp, Belgium (with  
home-office flexibility)

## THE COMPANY

Are you tired of big, slow-moving corporate machines? Do you like having a broad scope of responsibilities and a lot of variety in your day? Is it important to you to have opportunities to grow within a business? If yes, then this is a fantastic opportunity for you!

This is a creative and innovative company that is looking for a real QMS expert to join their team in Antwerp. With a broad portfolio and broad responsibilities you can guarantee that you will feel challenged every day. But look beyond the here and now because this company provides consistent emerging and new opportunities to grow within the business.

## THE ROLE

As a Quality Manager, you will be responsible for all QA-related tasks and support the development, maintenance and improvement of the QMS. This is an exciting role with the chance to work cross-functionally with engineers, manufacturers, clinical and Regulatory Affairs experts to ensure an effective coordination of the Quality processes.

This is a chance to be part of a company where decisions are made fast and where your voice is heard and listened to. You will be at the forefront, driving quality within the business, providing direction to management and molding the quality team.
