THE COMPANY

Are you tired of big, slow-moving corporate machines? Do you like having a broad scope of responsibilities and a lot of variety in your day? Is it important to you to have opportunities to grow within a business? If yes, then this is a fantastic opportunity for you!

This is a creative and innovative company that is looking for someone who is hungry to learn to join their team in Antwerp. With a broad portfolio and broad responsibilities, you can guarantee that you will feel challenged every day. But look beyond the here and now because this company provides consistent emerging and new opportunities to grow within the business.

THE ROLE

As a Quality Specialist, you will be responsible for supporting all QA-related tasks and supporting the development, maintenance and improvement of the QMS. This is an exciting role with the chance to work cross-functionally with engineers, manufacturers, clinical and Regulatory Affairs experts to ensure effective coordination of the Quality processes.

This is a chance to be part of a company where decisions are made fast and where your voice is heard and listened to. You will be at the forefront, supporting the Quality Manager to drive quality within the business, provide direction to management and mould the quality team.

ACTIVITIES

- Support the implementation and maintain the compliance of the QMS according to ISO 13485:2016
- Assist managing CAPAs, non-conformances, complaints and other quality-related activities
- Work cross-functionally on qualification and approvals suppliers and outsourced manufacturing partners against specific requirements and KPIs
- Contribute to the preparation and update of the respective KPIs and management reports
- Participate in internal audits and support external audits

REQUIREMENTS

- Experience with OR knowledge of quality management systems for the medical device industry (ISO 13485)
- Professional proficiency in English and Dutch language
