

Senior Manager Commercial Quality/ QA EMEA

Munich, Paris, London,
Milan, Budapest, or Sweden

elena@elemed.eu

The company

This is an exciting leadership position to join a global Lifescience company at the forefront of healthcare innovation. With almost 10,000 employees worldwide, the company is not just made up of employees but some of the brightest minds in the industry; scientists, innovators, problem solvers and leaders. If you're looking for a company where growth, progress and discovery are core to the mission, look no further. This company enjoys one of the best employee retention rates in the industry!

Your role as Senior Manager Commercial Quality EMEA

In this role you'll provide leadership, strategic direction, and reporting regarding Quality activities for the company's commercial entities across EMEA. You can expect a highly interesting and diversified role leading a motivated, diverse and international team of 8, whilst having the chance to be part of a company-wide quality transformation and harmonization.

This role partners strongly with the commercial EMEA region as well as acts as strategic partner to business units and customer services/support, with a view to do 4 things

- Ensure the QMS are maintained and optimised
- Drive opportunities for continuous improvement within QMS processes
- Maintain compliance
- Support product quality

Senior QA Manager - Responsibilities:

- Lead the Quality teams who are responsible for maintaining and improving the quality management systems (QMS) and ISO certificates for the company's commercial entities
- Drive performance and ensure that Quality Objectives are achieved to ensure that the company continues to deliver high quality products and services that meet quality, business and QMS compliance requirements
- Regulatory/Quality intelligence: Monitor changes in the regulatory/Quality landscape and ensure both internal and external stakeholders are trained on any changes. Keep abreast of QMS trends and requirements and develop competency and capability in the QA team to manage change and continually improve
- Foster strong relationships with key stakeholders across the company's commercial organisation, partnering with them to implement improvements from a quality and efficiency perspective
- Act as key strategic partner to the commercial organisation globally to provide input on quality requirements for key projects
- Lead the commercial Quality team, making sure they fulfil requirements related to complaint reporting, including providing investigational and CAPA support for adverse events, field safety corrective actions, and other CAPA-related activities
- Partners and works with other leaders within Global RA/QA to drive further harmonization and standardization of QMS processes

Do you have a customer orientated, problem-solving mindset?

Are you excited about leading across multiple cultures?

Do you prefer change and improvement over the comfortable status quo?

We are looking for a leader with a proven track record of managing culturally diverse teams. If you are excited by the prospect of working in a growing company that favours innovation and inclusion, this is the role for you! Remote management skills, the ability to roll up your sleeves as well as innovate in light of changing situations required!

Expectations

- Degree in Life Sciences or Engineering
- QMS experience and working knowledge of ISO 13485
- Remote Management experience
- Fluent English
- Experienced managing international and culturally diverse teams
