→ THE COMPANY

Do you want to further develop your career in the newest innovations in blood testing IVD technology? See the products before they hit the market? Work with some of the top experts in the field?

Think about joining a Notified Body! This company is one of the global leaders for assessing whether diagnostic manufacturers meet the requirements set out in European legislation, ensuring their products are safe and effective. This is a great chance to really be at the centre of the most cutting edge blood testing IVD technology entering the market.

This is a newly created role and a unique chance for an in vitro diagnostic professional specialised in the development of blood tests to use those skills in a new context. You will get access to high-value, advanced training, learn about the new In Vitro Diagnostic Regulation, as well as use your technical knowledge to represent the company in stakeholder discussions with the European Medicines Association (EMA) in Brussels. This is a chance to be part of and central to the biggest change affecting the Diagnostics industry in the last 50 years.
