

Notified Body Auditor

Fully remote in Europe -
work from home!

kristina@elemed.eu

Calling all manufacturing and quality professionals!
Fancy trying something a little different?

The opportunity

Have you ever thought about joining a notified body? We are offering a great chance for professional development in a notified body, going through a transformation. This isn't just a classic auditor role! In this role, you will have your voice heard and be more than just a number – this is a role where you can shape the future. You can also expect an excellent work-life balance, working from home, connected to a team of some of the greatest minds in the industry.

As an Auditor with a specialism in plastics and/OR metal processing, you will audit some of the most innovative medical device companies (and their suppliers) coming to the market; from startups and global corporations alike. You will add technical competence to this Notified Body in their audit team in the area of plastics and/OR metal processing, and ensure their reputation remains unrivalled. Your primary responsibility is to conduct Quality Management system audits in accordance with MDR. You will report directly to one of the senior leaders of the notified body!

Responsibilities

- Audit the QMS of manufacturers, suppliers and subcontractors, in accordance with MDR
- Lead QMS audits for certification, re-certification and surveillance purposes
- Create technical audit reports based on the audit activities that you have carried out and present the findings and results of the audit to clients
- Interface with customers and ensuring that communication is transparent and services delivered are customer orientated and to a high standard
- Partner internally with other colleagues to support their own audit/certification processes
- Take part in the overall upskilling and development of colleagues within the company through delivering training when needed

Do you have

- A passion for innovation and quality?
- The desire to apply your skills in a new context?
- Great attention to detail?

This is a great opportunity to be at the forefront of the newest, cutting edge technology in Medical Devices. If you have previously worked in industry in a **SUPPLIER QUALITY** role, with experience in PLASTIC and/OR METAL processing, then this could be the perfect opportunity for you.

Must have, Essential Requirements

- Bachelor's, Master's or PhD in relevant science or engineering
- Demonstrated SUPPLIER audit experience for PLASTIC AND/OR METAL processes
- Working experience with ISO 13485
- Travel: Up to 40%
